Form PCT/ISA/210 (first sheet) (July 1998)

International application No.

PCT/US 02/11465

Box III TEXT OF THE ABSTRACT (Continuation of item 5 of the first sheet)

A multi-pole high speed generator includes a rectifier module assembly (100) that is dimensioned to be mounted within the hub (410) of a high speed generator exciter armature which rectifier module assembly includes a substantially flat base (102) that has a plurality of conductive circuit runs (106,108,110) formed on it, and which is dimensioned to be mounted within a hub of the exciter (408). A first dioded circuit (118), which includes an anode and a cathode, has its anode electrically coupled to a first (106) of the plurality of conductive circuit runs. A second diode circuit (120), which also includes an anode and a cathode, has its cathode electrically coupled to a second (108) of the plurality of conductive circuit runs. A conductive element (122) electrically couples together the cathode of the first diode circuit (118) and the anode of the second diode circuit (120).

A. CLASSIFICATION OF SUBJECT MATTER IPC 7 H02K11/04

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

 $\begin{array}{ll} \mbox{Minimum documentation searched (classification system followed by classification symbols)} \\ \mbox{IPC 7} & \mbox{H02K} \end{array}$

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practical, search terms used)

EPO-Internal, WPI Data, PAJ

Category °	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
